# CAPABILITIES SOLUTIONS

Introducing Contrac's New Capabilities Services

Are you ready to take your business to new heights of technological efficiency and success? Look no further!

As an IT Managed Services Provider (MSP) we offer a complete range of cutting-edge solutions to empower your organisation's digital transformation journey.

With our expert team of professionals, state-of-the-art technology, and unwavering commitment to excellence, we are here to revolutionise your IT infrastructure.

Proactive IT Support

Stay ahead of potential issues with our proactive IT support. Our team monitors your systems 24/7, identifies vulnerabilities, and resolves them before they impact your business operations. Focus on your core activities while we take care of your IT needs.

Network Management

Experience seamless connectivity and optimised network performance. We design, implement, and maintain robust network architectures, ensuring smooth data flow, enhanced security, and high-speed communication across your organisation.

Cloud Solutions

Embrace the limitless possibilities of the cloud. We provide end-to-end cloud solutions tailored to your specific requirements. From strategy and migration to ongoing management, we optimise your cloud infrastructure for enhanced scalability, flexibility, and cost-efficiency.

Cybersecurity

Protect your business from ever-evolving cyber threats. We deploy advanced security measures, including firewalls, encryption, intrusion detection systems, and regular security audits. Safeguard your valuable data and maintain regulatory compliance with confidence.

Data Backup and Disaster Recovery

Prepare for the unexpected with our robust data backup and disaster recovery solutions. We implement automated backup processes, off-site storage, and efficient recovery strategies, ensuring minimal downtime and maximum data integrity.

IT Consulting

Leverage our expertise to drive strategic IT decisions. Our experienced consultants collaborate with you to align technology with your business objectives. From infrastructure planning to software selection, we empower you to make informed choices and stay ahead of the competition.

Vendor Management

Streamline your IT operations by leaving vendor management to us. We handle interactions, negotiations, and relationships with technology providers, ensuring you receive the best products and services at competitive prices.

IT Infrastructure Upgrades

Modernise your IT infrastructure for optimal performance. We advise thorough assessments and recommendations and implement hardware and software upgrades, and ensure seamless integration with your existing systems. Unlock increased productivity and efficiency across your organisation.

Help Desk and User Support

Experience prompt and reliable technical support wherever and whenever you need it. Our friendly help desk team are just a phone call away, ready to assist with troubleshooting, software installations, user training, and much more. We prioritise your satisfaction and productivity.

Managed IT Services for Remote Workforces

Enable your remote workforce to thrive. We offer tailored solutions to support your distributed teams, including secure remote access, virtual collaboration tools, performance monitoring, and IT support for remote employees. Bridge the geographical gap effortlessly.
